S u f f i e l d

Players: 2-6

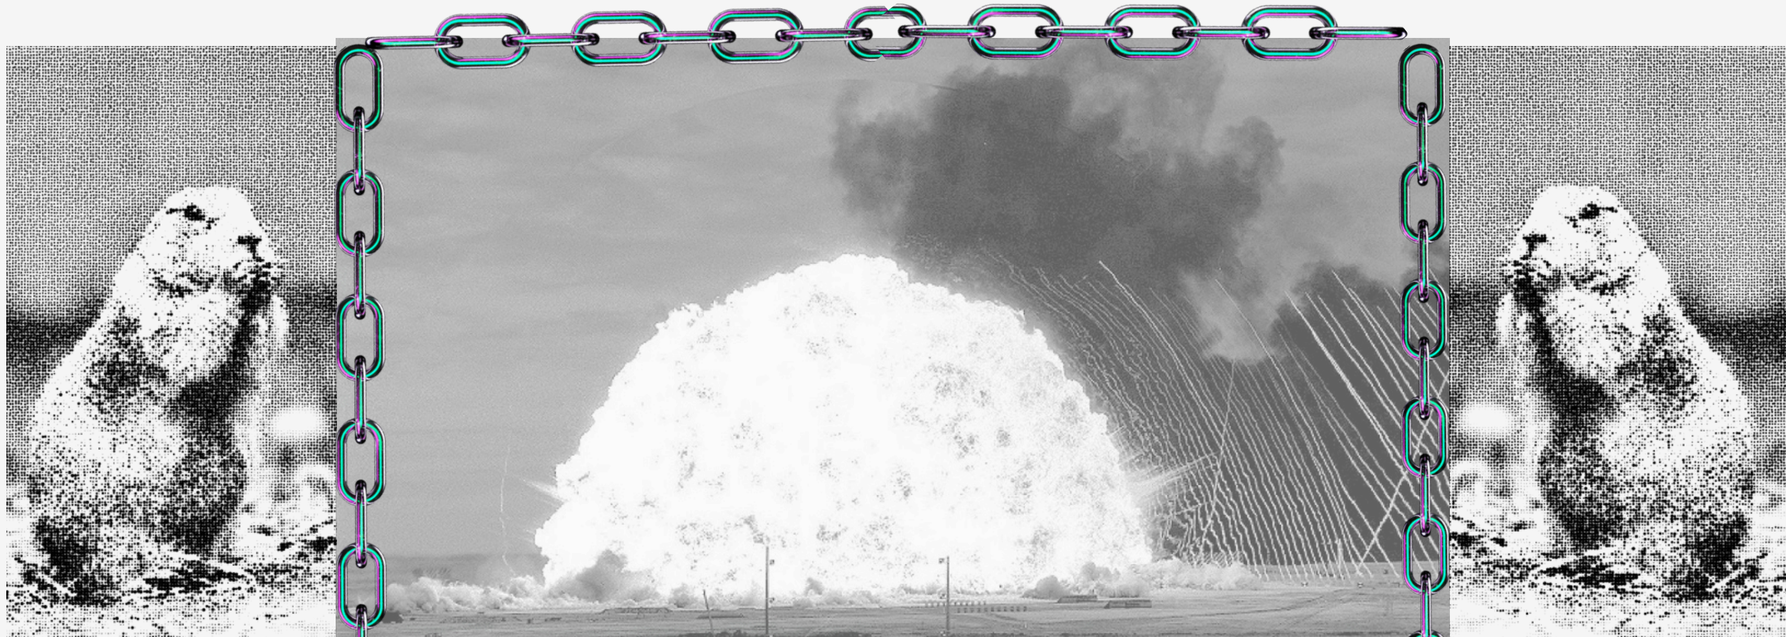
On July 17, 1964, the Defence Research Board of Canada - in collaboration with the US and UK militaries - detonated 500 short tonnes of TNT at CFB Suffield (in southern Alberta), named Operation Snowball. It remains the largest man-made & non-accidental explosion in Canadian history. It created a crater 73m across. Rumour has it, it also created a group of unhoused prairie dogs who now hate the international weapons industry. They have decided to take up arms and wage a war of survival, destroying military infrastructure at CFB Suffield to reclaim their home.

Rules

1. Every player has 5 lives. Suffield starts with 200 points. If there are 3+ players, each extra player = +50 Suffield starting points.
2. Each turn, players will roll two six-sided dice. If a roll equals 6 or less, the player loses 1 life. If a roll equals 7+, Suffield loses that amount of points (plus any bonuses). Please be creative with the stories you tell about losing lives.
3. Game continues until Suffield loses all points (**prairie dogs win**) or until all prairie dogs have lost all their lives (**Suffield wins**).

Character Bonuses (Choose 1)

Soldier - add +1 point to every roll
Sneak - for one of your rolls under 6, avoid losing a life
Warrior - for one of your rolls, add +15
Medic - restore 1 life of any player

Story Mods (optional)


Drought - Suffield is drier than usual; incorporate sandstorms into the game
Blastzone - every 10 turns, all players roll, and lowest roll loses a life
